Professional Summary

Game Producer with a computer science background and 6+ years of broader experience across creative production, client delivery, team leadership, and digital operations. Currently coordinates the full production cycle for mobile games at Game District, including sprint planning, backlog priorities, build and release schedules, cross-discipline coordination, LiveOps, and post-launch KPI tracking. Earlier Unity development experience and years managing designers, developers, and remote contributors provide both technical context and hands-on production discipline.

Core Competencies

Game Production: Mobile game production, sprint planning, backlog prioritization, production roadmaps, build and release management, LiveOps

Cross-Discipline Coordination: Game design, development, 2D/3D art, QA, asset pipelines, dependency tracking, milestone management

Analytics & Delivery: Post-launch KPI tracking, content updates, feature iteration, monetization support, quality assurance, release scheduling

Tools & Technical Context: JIRA, Agile/Scrum, SDLC, Unity (basic), Adobe Photoshop, Adobe Illustrator

Professional Experience

Game Producer April 2026 – Present
Game District *Lahore, Pakistan (On-site)*

- Coordinate mobile game production from concept through build, release, and live operations, connecting creative goals with technical execution.
- Run sprint planning, backlog prioritization, milestone tracking, and release scheduling for cross-functional production work.
- Coordinate daily work between game designers, developers, 2D/3D artists, and QA so dependencies and acceptance expectations are visible early.
- Improved asset and build pipelines to reduce bottlenecks and maintain production momentum ahead of releases.
- Own post-launch LiveOps tracking, reviewing analytics and key performance indicators to guide content updates, feature improvements, and monetization decisions.
- Served as Game Producer during Game District's 3-day AI-thon, where the team finished 2nd among 55 teams with a 2D kids' toy-smashing game built using AI tools across the workflow.

Founder January 2021 – Present
Amaanity *Lahore, Pakistan (Remote)*

- Manage distributed design, development, and content production pipelines for international client projects.
- Break client requirements into executable work, assign contributors, track deadlines, manage revisions, and perform final QA before delivery.
- Recruited and managed remote developers and design specialists, giving practical experience coordinating mixed creative and technical contributors.
- Served 300+ international clients and maintained 200+ five-star reviews while reaching Fiverr Level 2 Seller status.

Project Coordinator June 2025 – April 2026
Stichting Creating Talents *Amsterdam, Netherlands (Remote)*

- Coordinated remote design and development work from requirements and scheduling through review and final delivery.
- Kept creative and technical contributors aligned on scope, milestones, feasibility, and client feedback.
- Tracked deliverables and managed iteration loops across a distributed project pipeline.

Creative Team Lead April 2025 – March 2026
AS Group of Companies *Lahore, Pakistan*

- Led designers and content managers responsible for concurrent internal and client-facing production work.
- Set priorities, delegated workloads, reviewed quality, and kept the team on schedule across multiple active deliverables.
- Managed briefs and feedback with external clients, reinforcing production skills in requirement interpretation and iteration.

Senior Graphics Designer April 2024 – March 2025
AS Group of Companies *Lahore, Pakistan*

- Established repeatable design templates and asset workflows that improved day-to-day production turnaround.
- Worked within high-volume creative pipelines before being promoted into team leadership.

Intern Unity Developer September 2023 – December 2023
OZI Technology *Lahore, Pakistan*

- Developed, debugged, and optimized game features in Unity as part of a development team.
- Worked directly with game-development iteration and technical problem solving, providing hands-on context for current producer responsibilities.
- Applied development team practices around testing, debugging, and incremental feature improvement.

Creative Manager June 2022 – April 2023
Poem Solutions Limited *London, United Kingdom (Remote)*

- Managed a remote visual production team from creative brief through publishing.
- Planned workloads and timelines, assigned tasks by strengths, and maintained quality through review.

Senior Graphics Designer & E-commerce Specialist April 2020 – April 2021
Mauj Group *Lahore, Pakistan*

- Managed digital storefront content and visual merchandising across Daraz, Shopify, Facebook, and Instagram while coordinating recurring production work.

Graphics Designer & E-commerce Specialist April 2019 – March 2020
Mauj Group *Lahore, Pakistan*

- Created digital assets and product listings for online channels, building the hands-on production foundation that later expanded into leadership and game production.

Education

Bachelor's Degree in Computer Science November 2021 – February 2026
National College of Business Administration & Economics (NCBA&E) *Lahore, Pakistan*

Key Achievements

- Led the team to a Runner-Up finish (2nd of 55 teams) at Game District's 3-day AI-thon; served as Game Producer for a 2D kids' toy-smashing game developed with AI tools across the production pipeline.
- Served 300+ international clients and maintained 200+ five-star reviews as a Fiverr Level 2 Seller through Amaanity.
- Promoted from Senior Graphics Designer to Creative Team Lead at AS Group of Companies within 12 months.
- Coordinated remote international projects across Pakistan, the Netherlands, and the UK simultaneously.
