Professional Summary

Project management professional with 6+ years of experience spanning digital delivery, creative operations, international client work, team leadership, project coordination, and mobile game production. Progressed from hands-on design and e-commerce roles into ownership of schedules, requirements, resources, quality control, releases, and cross-functional delivery. Currently manages mobile game production at Game District; previously coordinated remote projects for a Netherlands-based organization and led a creative team after an internal promotion at AS Group. BS Computer Science background supports effective collaboration with developers, designers, QA, and business stakeholders.

Core Competencies

Project Delivery: Project coordination, scope definition, scheduling, milestone tracking, requirements gathering, resource allocation, budget and timeline control

Ways of Working: Agile/Scrum, sprint planning, backlog prioritization, SDLC, production roadmaps, JIRA, build and release coordination

Stakeholders & Teams: International client communication, cross-functional coordination, remote team management, feedback management, mentoring, quality assurance

Technical Context: Mobile game production, LiveOps, KPI tracking, Unity (basic), Adobe Photoshop, Adobe Illustrator, Shopify, Daraz

Professional Experience

Game Producer April 2026 – Present
Game District *Lahore, Pakistan (On-site)*

- Manage mobile game production from concept and planning through build, release, and post-launch live operations.
- Run sprint planning, backlog prioritization, milestone tracking, and release scheduling across active development work.
- Coordinate game designers, developers, 2D/3D artists, and QA to keep scope, dependencies, and delivery timelines aligned.
- Improved asset and build workflows to reduce operational bottlenecks before release.
- Track post-launch analytics and key performance indicators to support decisions on updates, features, and monetization.

Founder January 2021 – Present
Amaanity *Lahore, Pakistan (Remote)*

- Built and manage a distributed digital services operation delivering design, development, and content projects for international clients.
- Act as primary client contact for 300+ customers, clarifying requirements and managing scope, budget, timelines, revisions, and delivery expectations.
- Recruit and assign developers and design specialists based on project requirements, workload, and deadlines.
- Serve as final quality gate before delivery; the operation has maintained 200+ five-star reviews and Fiverr Level 2 status.

Project Coordinator June 2025 – April 2026
Stichting Creating Talents *Amsterdam, Netherlands (Remote)*

- Coordinated design and development projects from initial scope through final international delivery.
- Translated business requirements into actionable tasks and kept clients, designers, and developers aligned on priorities and expected outputs.
- Maintained schedules, production milestones, and deliverable tracking across a distributed workflow.
- Managed feedback loops and checked project outputs against client quality requirements before final delivery.

Creative Team Lead April 2025 – March 2026
AS Group of Companies *Lahore, Pakistan*

- Promoted to lead the internal creative function, overseeing designers and content managers working across company brands and external client work.
- Assigned workloads, set priorities, reviewed work, and coached team members while balancing multiple concurrent deadlines.
- Managed the creative production lifecycle from requirement gathering and scheduling through review, revisions, and final delivery.
- Served as a client-facing point of contact for briefs, feedback, scope clarification, and delivery coordination.

Senior Graphics Designer April 2024 – March 2025
AS Group of Companies *Lahore, Pakistan*

- Created and maintained visual standards across internal digital channels while handling recurring production requests.
- Built reusable templates and asset workflows that shortened turnaround for day-to-day design work and supported the later move into team leadership.

Intern Unity Developer September 2023 – December 2023
OZI Technology *Lahore, Pakistan*

- Developed, debugged, and optimized Unity game features while working within a development team.
- Gained practical experience with technical workflows, iteration, and collaboration between development disciplines.

Creative Manager June 2022 – April 2023
Poem Solutions Limited *London, United Kingdom (Remote)*

- Managed a remote team of visual artists and translated incoming requirements into clear creative briefs.
- Set production timelines, assigned work based on individual strengths, and monitored delivery through final publishing.
- Reviewed outputs for consistency and quality before release.

Senior Graphics Designer & E-commerce Specialist April 2020 – April 2021
Mauj Group *Lahore, Pakistan*

- Managed e-commerce storefront work across Daraz, Shopify, Facebook, and Instagram, including listings, visual merchandising, and inventory alignment.
- Handled higher-responsibility creative and e-commerce work after progression from the Graphics Designer & E-commerce Specialist role.

Graphics Designer & E-commerce Specialist April 2019 – March 2020
Mauj Group *Lahore, Pakistan*

- Produced digital marketing assets and built product listings for Daraz and Shopify with accurate descriptions and imagery.
- Supported day-to-day e-commerce content and merchandising requirements across online channels.

Education

Bachelor's Degree in Computer Science November 2021 – February 2026
National College of Business Administration & Economics (NCBA&E) *Lahore, Pakistan*

Key Achievements

- Coordinated remote international projects across Pakistan, the Netherlands, and the UK simultaneously.
- Served 300+ international clients and maintained 200+ five-star reviews as a Fiverr Level 2 Seller through Amaanity.
- Promoted from Senior Graphics Designer to Creative Team Lead at AS Group of Companies within 12 months.
- Led the team to a Runner-Up finish (2nd of 55 teams) at Game District's 3-day AI-thon; served as Game Producer for a 2D kids' toy-smashing game developed with AI tools across the production pipeline.
